PROFILE SUMMARY

A young and vibrant software developer with over 1 year experience in software development.

I have experience with creating logical and innovative solutions to solve complex problems. As someone who takes responsibility for my own personal development, I continuously evaluate and upgrade my skills so that I stay at the cutting edge of web and mobile development.

I am a natural problem solver who has proven himself by completing various software and web development projects.

I have created several software products. Some of these works includes housing website, a portfolio website, a sales website that enhances easy purchase of products on the website and many more.

SKILLS

Frontend: HTML | CSS | Javascript | DOM | CSS Layout | Algorithm | ES6 | React JS
Backend: NODE.JS | Mongo DB |C#
Agile Methodology

WORK EXPERIENCE

Full Stack Developer – GoMyCode Academy (2022 till date)

- Develop modules for applications within a micro-service-based framework using JavaScript, React.js, Node.js, and other similar languages.
